For Immediate Release

Norcom Solutions partners with RapidFire Tools.

Tarrytown, NY, May 1, 2020 - Norcom Solutions, established in 1997, is proud to announce that RapidFire Tools, a leading IT Assessment and Compliance Software Provider, has joined its family of companies as a trusted business partner.

Headquartered in Atlanta, GA, RapidFire Tools, develops and sells innovative and powerful, award-winning IT software tools with clear value propositions that help organizations expand their IT infrastructure, reduce their costs and run their operations more successfully.

RapidFire Tools offerings include Network Detective® for IT assessments, documentation, and reporting; Compliance Manager for Compliance Process Automation (CPA); and Cyber Hawk for internal cyber security threat detection and alerting.

"With this partnership and having the integration of RapidFire Tools' compliance solutions in our suite of products, this is another move in Norcom's path to becoming a leading Trusted Solution Advisor," said Joseph Denise, Founder and CEO of Norcom. We are excited about the continued growth opportunities this represents. As we transition ourselves into a 'True Trusted Advisor' role our approach continues be focused on delivering the best-in-breed solutions that our customers need to manage and grow their business. With the partnership of RapidFire Tools, we have taken another step in our evolutionary growth while enhancing our solution offerings, which will provide a tremendous ongoing value to our customers that they are demanding."
